Make your calendar your best friend

Our Story

We believe that too many people are victims of their calendars, lacking adequate tools to defend and manage their time during the week. This keeps them from balancing their work lives and personal lives, and from being the best leaders they can be.

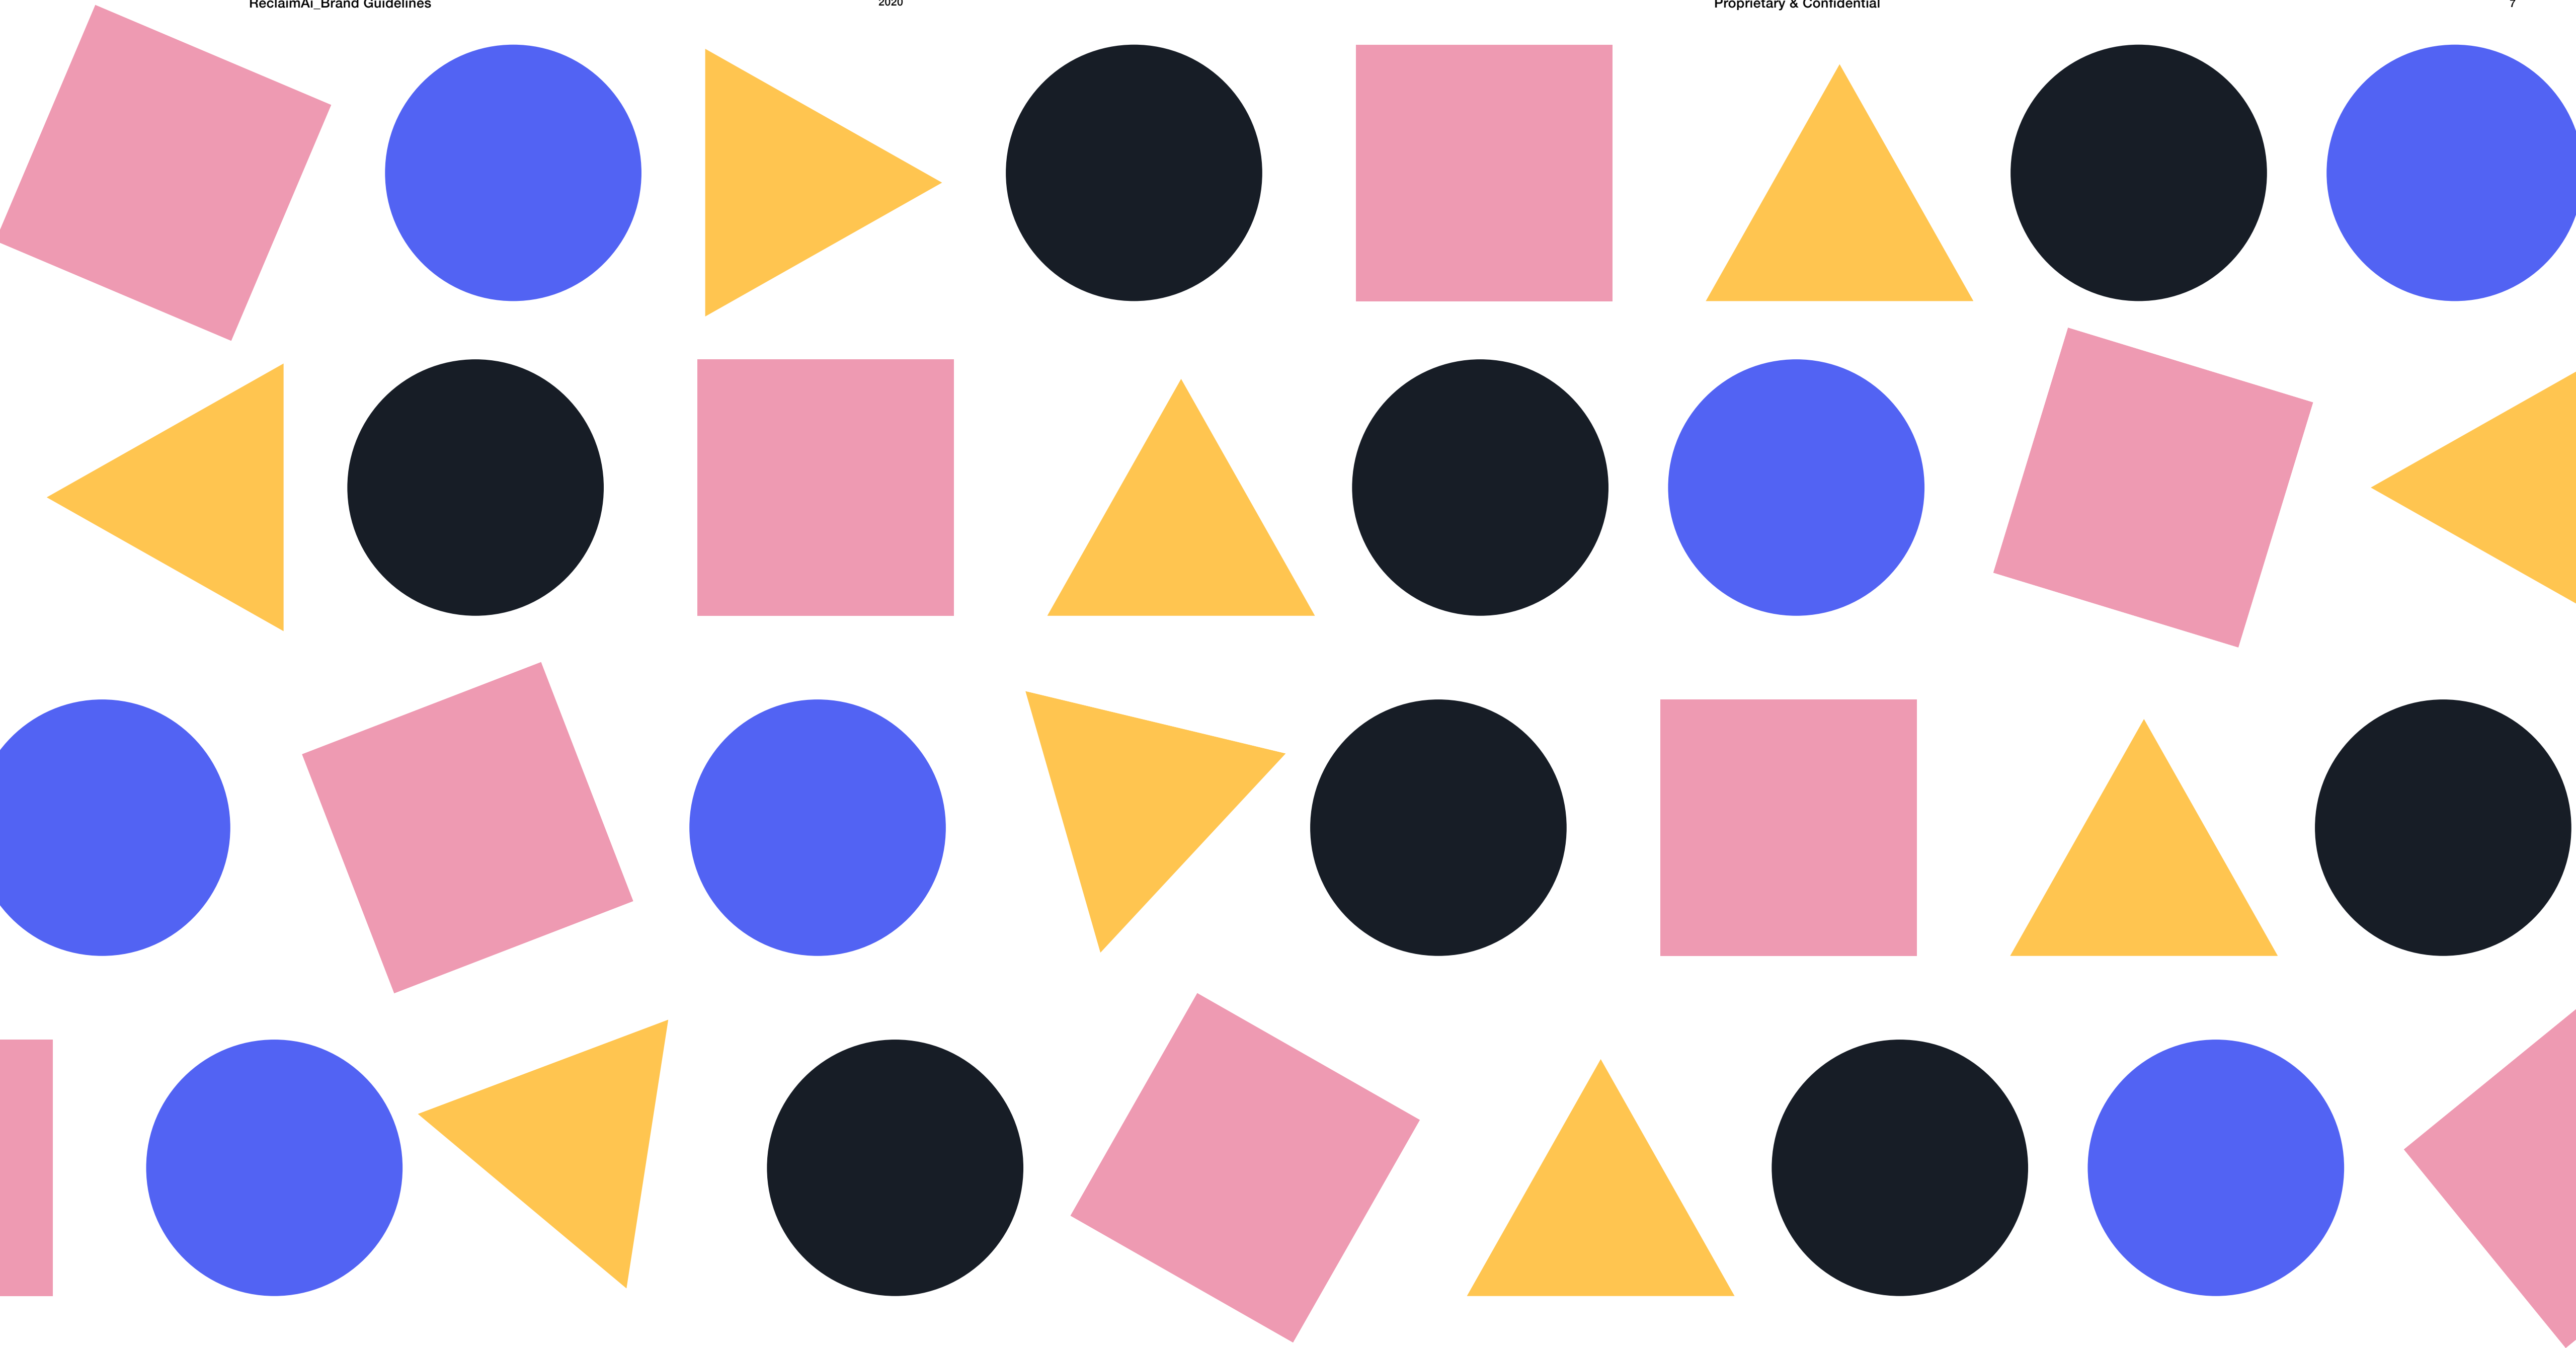

That’s why we’re building Reclaim.

Reclaim leverages decades of domain experience building great teams and great products, and is designed with the unique culture and needs of product people in mind. We didn’t want to build a generic time management tool that served everyone and no one: we wanted to solve a real problem for people we know and love.

We don’t believe in “luxury software”. We believe that every manager deserves a great tool for staying focused.

Brand Identity

Brand Icon

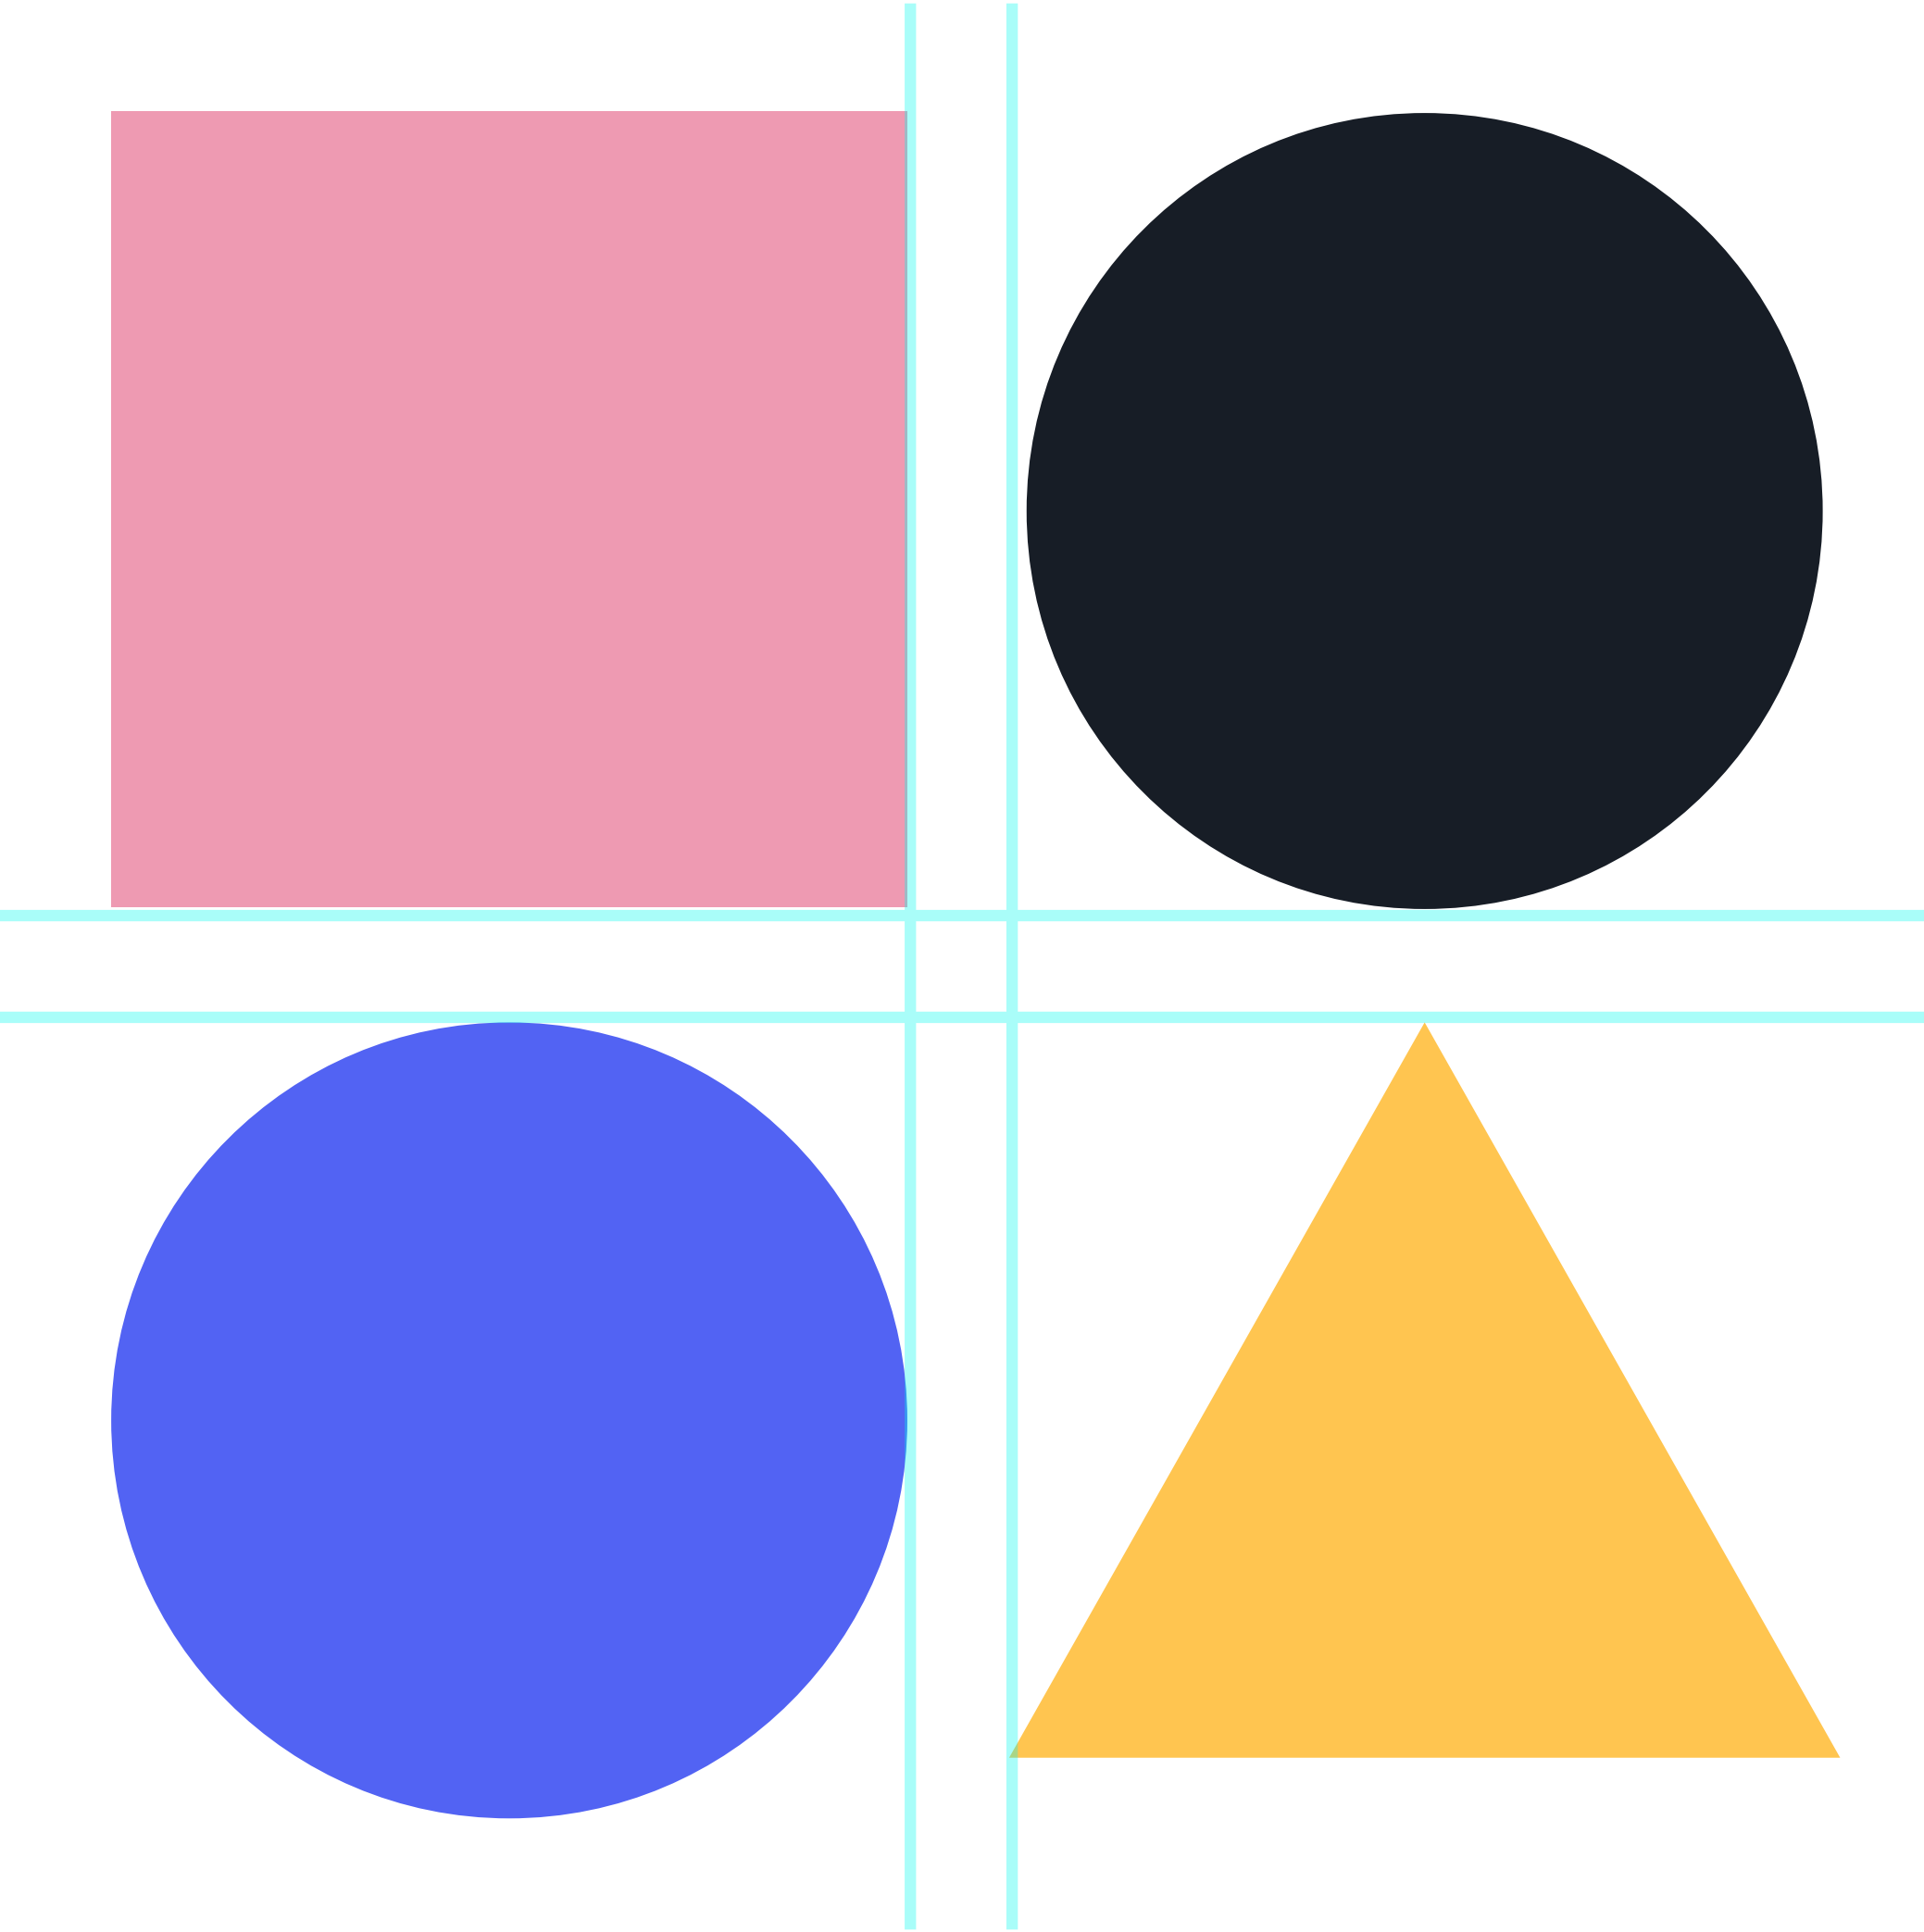

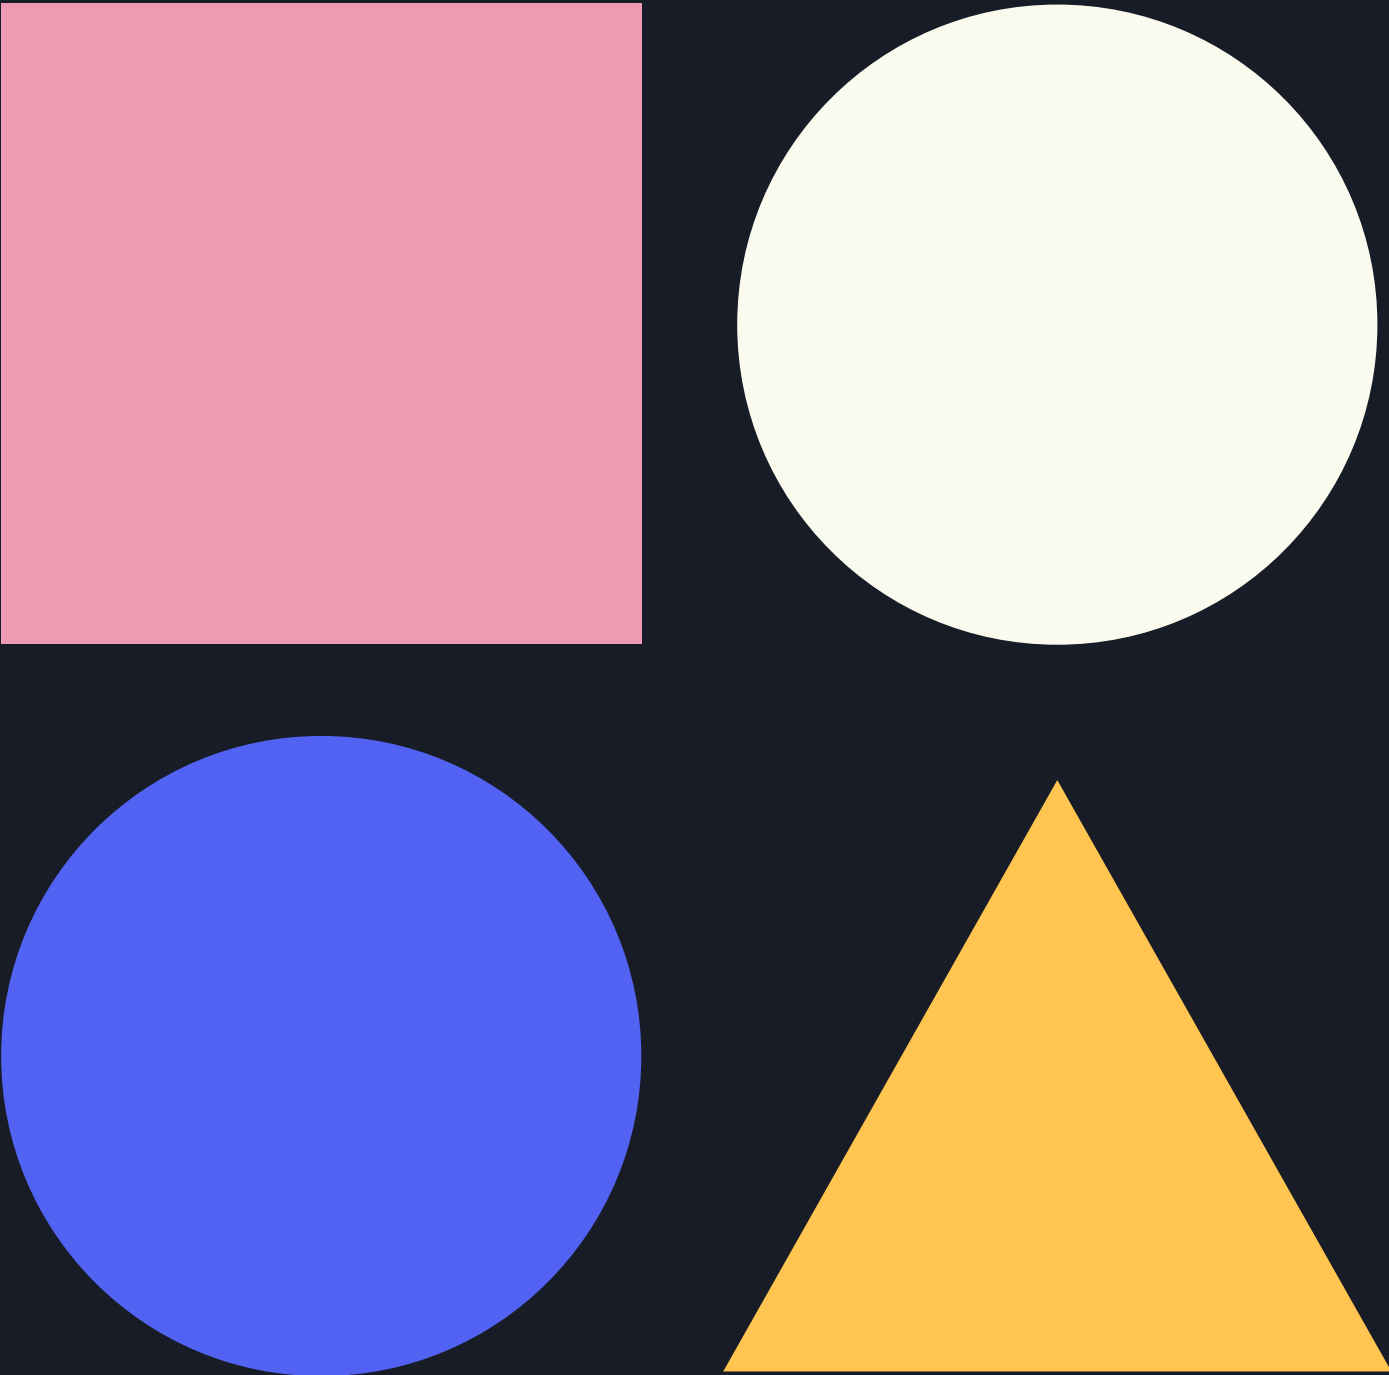

It is nearly impossible to easily navigate your
schedule with constant road blocks and hurdles.
Daily stand up, reviews, interview, feedback call,
task management... Lunch?
It can all get a bit overwhelming.

That's why reclaimai is here.

Icon

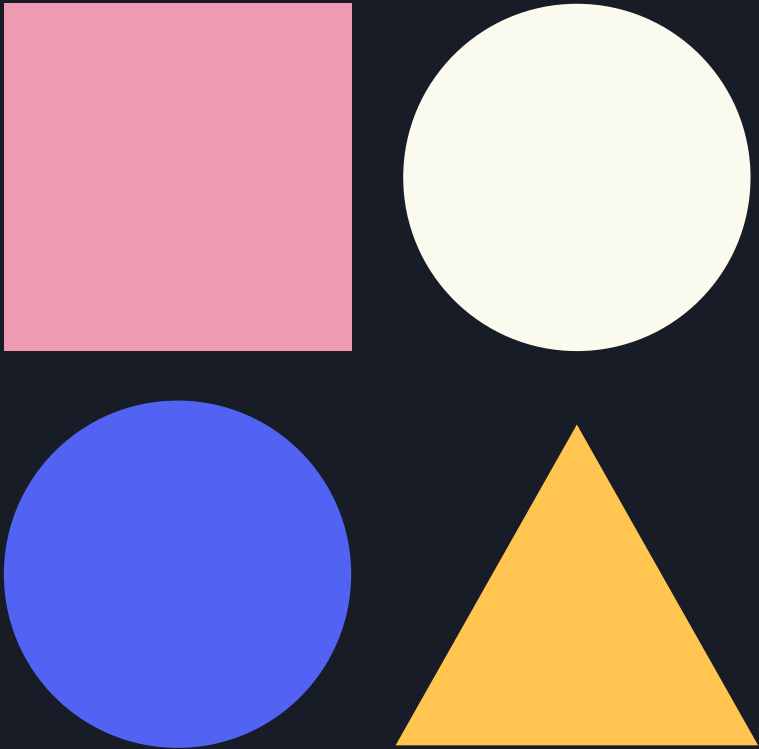

The brand icon is based off of organizing several different tasks into a single understandable form. Reclaim is always tinkering in the background to deliver you the most pragmatic path forward. This approach informs the construction of a single icon made from different shapes and colors.

Icon Suite

We capture reclaimai’s dynamic and agile approach with a suite of brand marks for specific application. This gives the brand more unique ways to come to life deferring on the context.

Primary Brand Icon Application

Secondary contained mark

Tertiary special usage

Wordmark

Wordmark

The wordmark is friendly, welcoming and highly legible. Set in a lowercase form this allows the mark to be approachable and maintain a clean X height. We subtly differential the “AI” with alternate font weight to slightly contrast with “reclaim.”

Logo

Logo

The final logo combines the wordmark and icon together to create this friendly and pragmatic brand logo.

Spacing

Ensure you are giving the logo the appropriate spacing to other objects. There should also be one icons space between the logo and any other element.

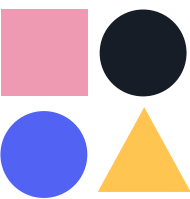

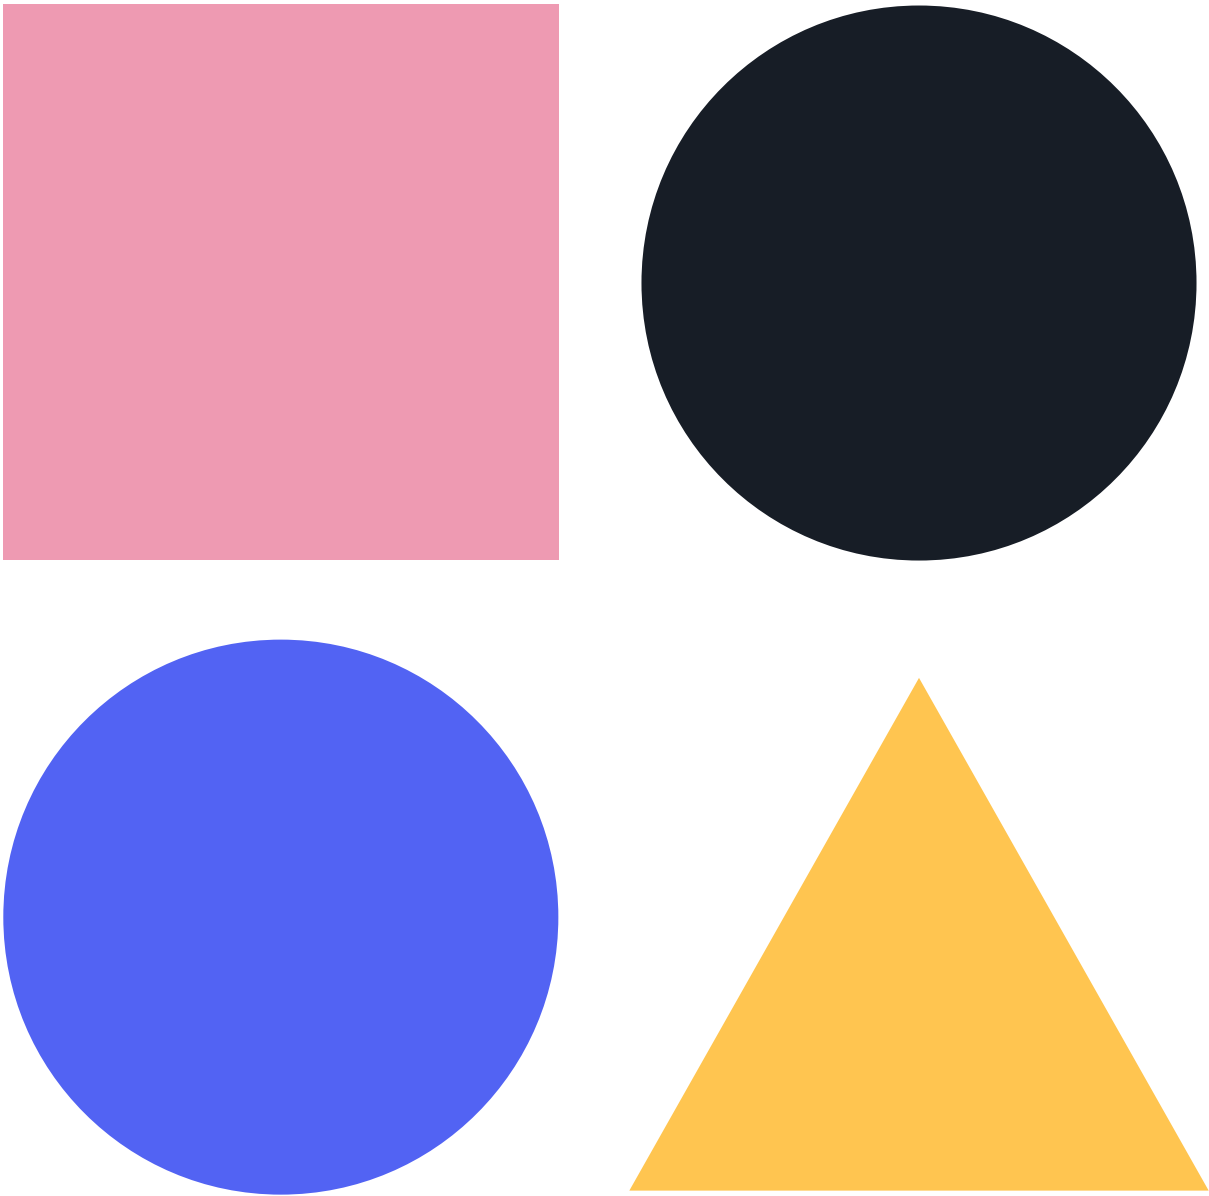

Responsive We will create a suite of logo variations optimized for multiple size restrictions. The core reclaimai logo alters and morphs to fit size constraints found in different media.

How can I help you?

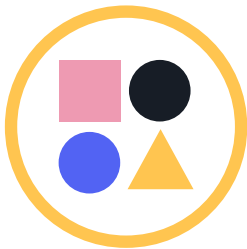

Logo System We built a dynamic brand system that allows the brand to be versatile and represent itself more intentionally depending on the touchpoint.

Open

Personality

Contained

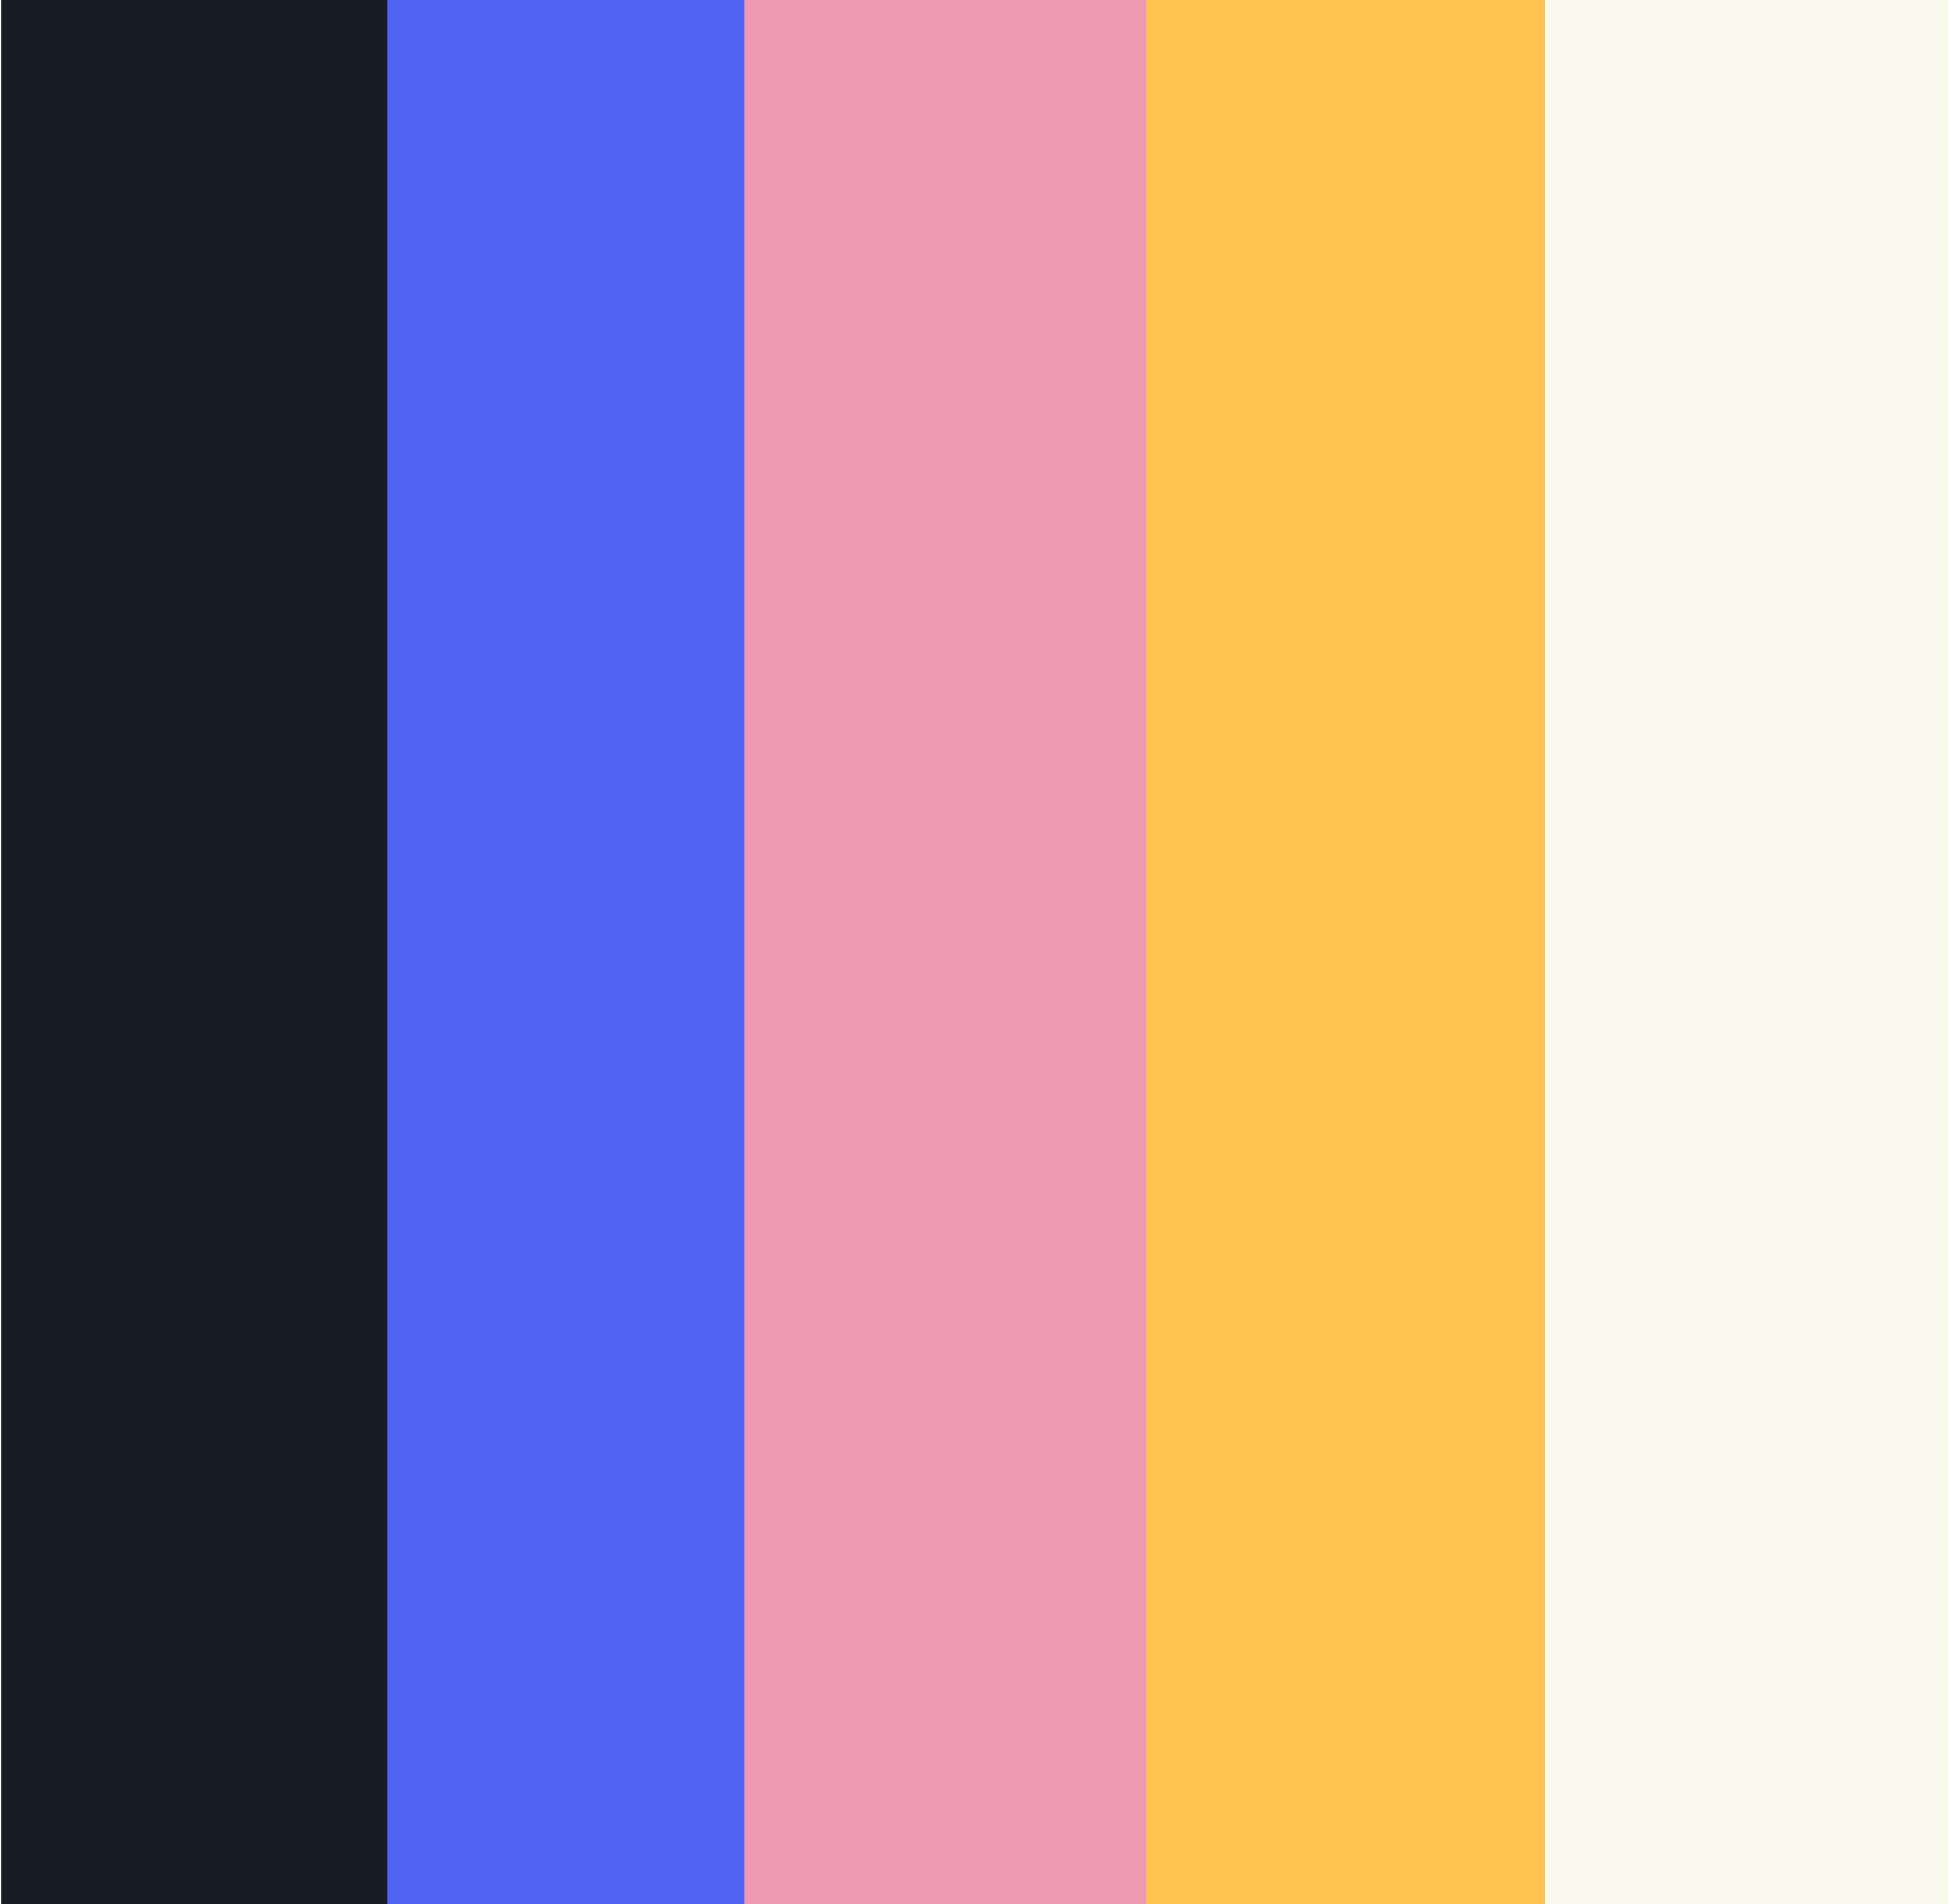

A special “easter egg” state where we reveal the humanistic personality of the brand.

Color Palette

Color palette

Reclaimai brand color are distinct and energetic. It capture the progressive and positive approach of the brand. The brand is tech and data driven but we wanted to capture a humanistic personality as well. The color palette helps to bring the brand to life as your trusted helper. It's a balance of approachable, uplifting and trusted.

Color Palette

The color Palette consists of an even split between the primary five colors. This approach is baked in the DNA of the brand icon that utilizes all primary brand colors.

Typography

Typography

01 Apercu is the brands primary typeface. Aperçu was to create a synopsis or amalgamation of classic realist typefaces: Johnston, Gill Sans, Neuzeit & Franklin Gothic. Becoming, a sum of parts, building upon its initial reference points to create an extensive and usable family. We utilize Apercu for headline treatments.

02 Poppins is our secondary typeface. This is a google font workhorse. It is a geometric sans serif and is described as “an internationalist take on the geometric sans genre.” This is an approachable and highly legible font with a very distinct rounded quality.
